

LGBT

Leslie also works with lesbian, gay, bisexual and transgender individuals, couples, and their families.

The title of her dissertation is:

WHEN A TRANSSEXUAL FAMILY MEMBER TRANSITIONS:

A QUALITATIVE EXPLORATION OF THE FAMILY'S EXPERIENCE

For several years, because of some personal experiences, Leslie has had a strong interest in transgender and the personal and families issues that arise before, during, and after gender transition. She participates with a group that focuses on transgender aging issues, as well.

Please feel free to contact her with any questions you may have, or to get more information about the services I offer, whether you are lesbian, gay, bisexual, transgender, questioning, or a friend or family member of an LGBTQ individual.
